1000'S DECAL & STRIPE KITS FOR MUSCLE CARS

GM | MOPAR | AMC | JEEP | FORD

To our Valued Customers,

Thank you for choosing our Phoenix Graphix Decal & Stripe Kits Catalog for Muscle Cars. Decals put the finishing touch on your muscle car.

Since 1985, our mission has been to provide factory correct, user-complete decal and striping kits at an affordable price and in a timely fashion. With this philosophy, Phoenix Graphix leads the industry. We sell officially licensed decals for General Motors, Mopar, Jeep, AMC and Ford Motor Company vehicles. Our complete product line is proudly manufactured in the USA.

At Phoenix Graphix, we use the highest quality automotive-grade vinyl for ALL of our decals. Correctly colored inks together with a patented high gloss UV clear-coat assure your decals an exceptional shine. Years of extensive research in OEM design, coloration and manufacturing techniques have allowed us to create the most accurate restoration decal kits in the world.

Many companies sell decals piece by piece. We take the guesswork out of the purchase by including all required decals for your car in our complete kits. Using this system, we have helped thousands of enthusiasts restore their vehicles back to original appearance with ease and confidence.

Phoenix Graphix provides affordable, high quality products that are in stock and ready to ship. We pride ourselves on a reputation for outstanding customer service. After your purchase, you can feel confident we will be there for your questions, concerns and advice.

In the following pages, you will find a comprehensive listing of our product line. Our products are referenced by model, make, year, colors and options. We are continually expanding our product line, so if you do not see what you are looking for we encourage you to contact us for availability.

Remember: "WE ARE THE WORLD'S LARGEST MANUFACTURER OF LICENSED RESTORATION DECAL KITS!"

Happy Motoring,
The Phoenix Graphix Team

Part#: APP3X

APPLICATION & DETAILING

PRE-APP Surface Cleaner - [4 FLOZ]

Stage 1

Before applying decals and stripes, proper preparation of a vehicle's painted surface is crucial. Remove contaminants like silicones, wax, tree sap and bug guts for a clean and adherent surface. Nothing beats smooth decals and stripes that resist lifting because of a proper PRE-Application!

Benefits include:

- Helps insure a safe application
- Eases removal of contaminants
- Graphics lay flatter and appear smoother
- Prevents lifting of decals after application
- Easy spray-on application

SLIDE-ON Application Gel - [16 FLOZ]

Stage 2

Slide-On Application Gel will provide you the greatest advantage of a perfect application; time. Slide-On contains a special formula that resists drying until you are ready to squeegee the graphic into place. Only then does the decal "set-up". With Slide-On time is on your side. The more Slide-On you use the more time you have.

Benefits include:

- Helps insure a safe application
- Hydroplane, wet-method, application is a snap
- Dries only after you decide to squeegee
- Graphics lay flatter
- Easy squirt-on application

SLIDE-OVER UV Protectant & Conditioner - [8 FLOZ]

Stage 3

We recognize the importance of maintaining vinyl stripes and graphics. Help protect your decal from harsh elements and natural aging by applying our revolutionary Slide-Over UV Protectant & Conditioner. Slide-Over is not oily or greasy and does not attract dust. More importantly, unlike petroleum distillates, it does not draw moisture from the vinyl.

Benefits include:

- Protects from the sun's harmful UV rays
- Restores faded colors and luster
- Helps repel dust, dirt and oils
- Graphics clean-up more easily
- Easy spray-on application
